technology

**The world's smallest professional cordless screwdriver.**

**NEW! GSR ProDrive Professional screwdriver**

The new GSR ProDrive packs a punch in performance and is small enough to fit in any toolbox. Capable of driving over 110 screws (3.5mm) per battery pack, its compact size allows professionals to drive screws in the tightest of spaces – making it ideal for installing cupboards or for work on switchboards. Best of all, the tool is ready when you are, thanks to an exchangeable Lithium-ion battery pack with low self discharge when not in use. **For professionals from professionals.**

**BOSCH**

Invented for life

# Compact, powerful and light weight.

## Key features and benefits

**Powerful**  
7Nm

**Light weight**  
0.5kg

## Further advantages

- Unique Bosch Premium Lithium-Ion technology designed for 400% longer lifetime and unbeatable battery run time
- Bosch Electronic Cell Protection (ECP): Protects the battery against overloading, overheating and deep discharge
- Motor break guarantees precise workings for serial screw driving
- Integrated LED light is great for working in dark or enclosed areas
- No memory effect – the battery can be charged anytime, independently from the state of charge, without destroying the cells

## Specifications

	Units	GSR 3.6 V-Li Professional
Voltage	V	3.6
Battery capacity	Ah	1.3
No-load speed	rpm	0-250
Torque (hard)	Nm	7
Max. screw Ø	mm	5
Charging time	hr	1
Weight	kg	0.5
